Subject: Support Uber

PSC,

Removing Uber from South Carolina is a huge mistake. As a recent graduate of the University of South Carolina I was always plagued with dangerous walks around town especially late night. There has been numerous instances where muggings, shootings, raping and many other horrible circumstances were created because of the current public transportation available. Uber gave me reliable safety as well as thousands of others who began to use the App. If you take away Uber from me you not only put my safety in danger but the safety of the general public. I do not want to go back to the days of walking miles in the middle of the night calling for cabs that are so inefficient that they are almost worthless to even call. I also know many people who used to frequently drive after drinking for that very reason, who started using Uber instead of driving. I was glad that they were taken out from behind the wheel because of Uber and if Uber is taken away I have no doubt that they will go back to their old ways.

Reinstate Uber.

Concerned Citizen

Subject: Dissappointment

I am very disappointed to learn about the "cease and desist" directive to Uber. Uber service has transformed transportation choices, safety and convenience quicker than any other transportation offering I have ever utilized. The service also created a product residents adopted rapidly because of its unique use of GPS technology and the smart phone. Other ride sources such as limos and taxis were never considered an alternative, because they lacked the convenience of payment, a proper receipt, trustworthy drivers, the ability to contact them afterward, and a logistics support system focused on customer satisfaction. This decision is a mistake.

Sincerely,

Brumby McLeod

Subject: South Carolina need Uber

To whom it may concern,

As a resident of the state of South Carolina I would like to express my support for Uber and suggest that the state find a way to make it work. Uber provides safe, affordable and reliable transportation for the residents of this state. We need an alternative to the poor level of service often provided by the conventional cab services of this state. Make the right choice and allow Uber to operate in our state.

Best,

Tyler Osteen
Charleston, SC 29407

Uber is 100% more reliable than any taxi service I have ever taken. Of course the government hates this because uber takes away from their rules and regulations and gives it smaller, more reliable business people who actually care about serving citizens. If taxis/ charter systems/ bus routes were half as reliable as uber there would never have been a need for uber to be established. But there was a need.

Do not stop uber. Do not stop uber. Do NOT stop uber.
